

Berlin Partner
for Business and Technology

Our service for you

be

Berlin

Our aim: your success!

Today, Berlin is a business hub of international standing. The capital city is growing at a much faster rate than the rest of the country. More and more companies are seeing opportunities for themselves to become part of this success story.

We can help you.

Berlin Partner is the central point of contact for economic development in Berlin. We support you with setting up business, corporate development and technology transfer. This one-stop service means shorter distances and faster decisions for you. So you can concentrate on what is essential: your business goals in Berlin.

We consistently focus on our clients' needs. We support companies at every stage of their growth. From business plans, founding, financing and selecting a location to innovation consulting and personnel recruitment all the way to tapping new international markets.

Our promise

- **Competent**

Our professional advisors are experienced and have extensive industry knowledge.

- **Fast**

Contact us! We are always available for an initial consultation.

- **Networked**

We work closely with all agencies and organizations that play a role in economic development.

- **Unbureaucratic**

We converse instead of using forms to communicate.

- **Confidential**

We are neutral and follow strict data protection principles.

- **Free**

Our services can be used free of charge.

Our services

- **Location search**
We find the right property for your specific needs.
- **Financing**
We advise you on how to utilize public funding programs and establish contact with investors.
- **Recruiting and training**
We support you in your search for specialists and managers, as well as with personnel development.
- **Corporate development**
We will help you grow your business in Berlin and meet new challenges.
- **Industry and location information**
Our publications and Internet portals offer an overview of the companies and institutes in Berlin's most significant growth sectors.
- **Cluster management**
We develop the five clusters of the joint innovation strategy of the States Berlin and Brandenburg (innoBB).
- **Intellectual property protection**
We advise inventors and scientists with patent issues.

- **Government services**

We support you with permit/approval and visa issues.

- **Technology transfer**

We network partners from the worlds of business and science to improve products and processes.

- **Cooperation in networks**

In our networks, we offer platforms for productive exchanges and joint projects.

- **Collaborative projects**

We initiate and coordinate collaborative R&D projects.

- **EU service**

We support you with European-wide cooperation in the framework of the Enterprise Europe Network and represent the Berlin economy in Brussels.

- **Foreign trade support**

We organize informational and joint stands for Berlin-based companies at international trade fairs as well as trade missions to other countries.

Your contacts

Our industry teams support you in all matters and consult the necessary specialists. Feel free to contact us at any time!
